| <b>24 February 2026</b>   | <b>Deadline for issuing diplomas</b><br>(Date of the graduation ceremony: 26 June 2027) |

## General information

We would like to draw student's attention to the strict adherence to deadlines. Applications submitted after the deadline will be rejected, unless the student submits them together with a request for equity (**students may make a request for equity once during their studies**). Please send your applications electronically to the [tanulmanyi@tpfk.hu](mailto:tanulmanyi@tpfk.hu) e-mail address, the original document must be handed in in person at the Registrar's Office in Budapest or sent by post to the Registrar's Office in Budapest. In case of postal mail, please always send your request **by registered mail and with the acknowledgement of receipt**. You can find information about the opening hours and contact details of the Registrar's Office on the website.

**Students must attach all documents to the application** (certificates, certificates, permits, findings) **that are necessary for the assessment of the application**. Students will be informed about any correction needed via e-mail or phone, so it is important to check the correctness of their data recorded in NEPTUN and their e-mail inbox.

In the case of a request for equity, all documents that may be the basis for the claim for equity (e.g. medical certificate, employer's certificate) must be attached.

**Please check your data recorded in NEPTUN regularly!** The bank account number recorded in NEPTUN is especially important, because the College can only make repayments to a valid bank account. The College does not take responsibility for any inconvenience caused by an incorrectly entered bank account number.

For those whose social security is valid on the basis of their student status, it is extremely important **to accurately record their social security number in NEPTUN**, as they will not be insured without it.
